

Fellowship Centre**Queen Elizabeth Hospital, Birmingham**

Fellowship Country	England
Centre Town/City	Birmingham
Fellowship Director	Mr Ravi Marudanayagam / Mr John Isaac
Contact Number	1213714662
Faculty email	ravi.marudanayagam@uhb.nhs.uk / john.isaac2@uhb.nhs.uk
Specialty focus	HPB surgery, multiorgan retrieval and liver transplantation
Level	Senior clinical fellow
Duration	1-2 years
Salary	Yes
On-call	Yes
LTx	Yes
KTx	No
Pancreas Tx	No
Multiorgan retrieval	Yes
HPB	Yes
Research opportunities	Yes
Additional info	The job involves leading the multi-organ retrieval team, operating on HPB cases, covering out of hours liver transplantation, attending HPB MDTs, benign and cancer outpatient clinics, transplant assessment clinics, transplant listing meetings and supervising the audit/ research group meetings. It is an extremely busy unit performing advanced HPB surgeries including resections for hilar cholangiocarcinoma, ALPPS procedure, ex-situ liver resections, pancreatic resections with concurrent vein resections and advanced laparoscopic HPB surgeries. The transplant programme gives a wide exposure to transplantations from DCD and DBD donors, living related donors, auxiliary transplants and transplantation following machine perfusion.

Fellowship Centre

Royal Infirmary of Edinburgh

Fellowship Country	Scotland
Centre Town/City	Edinburgh
Fellowship Director	Mr Andrew Sutherland
Contact Number	1312423318
Faculty email	andrew.sutherland@nhslothian.scot.nhs.uk
Specialty focus	Transplant, HPB and multiorgan retrieval surgery
Level	Senior clinical fellow
Duration	2 years
Salary	Yes
On-call	1 in 6
LTx	Yes
KTx	Yes
Pancreas Tx	Yes
Multiorgan retrieval	Yes
HPB	Yes
Research opportunities	Yes
Additional info	Currently, there are five clinical fellows attached to the transplant unit, who work together with the four trainees to provide cover to the transplant on call rota. Given the breadth of activity, the unit is in a strong position to provide a comprehensive training programme in multi-organ transplantation and retrieval, exposure to novel technologies in organ transplantation such as in-situ and ex-situ organ perfusion and reconditioning all within a strong clinical and academic background.
